

KTMS-501

Cable Marker Kits

Heat Shrinkable Bandolier Style Colour Ident

Characteristics

Ten 4mm long cable coloured identification markers are supplied on each bandolier finger as a pre-scored sleeve for easy break off. The notched end section of the finger allows the wire to enter the marker prior to removal from the bandolier finger to provide fast, easy installation onto the wire, eliminating the need for intermediate installation tools.

Colour coded heat shrinkable marker sleeves with identification legend marked.

Operating temperature: From -55°C to +135°C

Shrink temperature: Minimum 120°C

Material: Radiation cross-linked polyolefin

Features

- Flame retardant
- Shrinks from 2.4mm to 0.8mm ID Ø
- Easy to handle
- Fast installation
